Subject -Removal of unauthorised structures and obstructions on municipal lands in Chamarajapet "C" Block Davangere City

Sir,

With reference to your letter No L 16886/6 dated 15-5-48 calling for report regarding the above subject I write to state that on receipt of information on 18-4-48 from the Sanitary Inspector that several persons were unauthorizedly putting up buildings in Municipal sites in Chamarajpet "C" block, notices were served on them on 19-4-48 to stop work But instead of obeying the lawful direction as per notice served, the construction of the buildings was hastened in an open and defiant attitude Four persons went to the length of even applying for grant of building licences on sites which they definitely stated in their applications as belonging to the Municipality

On 2-5-48 when the Municipal President and Councillors conducted the inspection of the third division in Company with the executive officers the highhanded attitude of the Voddars (bovies) was also noticed by them The President and the Councillors advised and warned the persons not to proceed with the unauthorized constructions on Municipal lands

On the note of the Municipal Commissioner the President convened a special emergent meeting of the Council and the Council after discussing the question completel, have unanimously resolved that these nine unauthorized structures and other obstructions in the city must be removed under Section 144 (2) of the City Ml Act A copy of the resolution of the Municipal Council is

is herein enclosed for information of Government

An attempt was made on 10-5-48 to get the obstructions removed, but as the parties prayed for time to enable them to pull down the structures themselves, two days time was granted to all the nine offenders Instead of pulling down the structures some of the persons in defiance of the notices served and advice given, they openly persisted in making additions to the unauthorized structures on Municipal lands

On the expiry of the time granted to pull down the structures by themselves, action was taken to commence demolition of the obstructions on 12-5-48 with the help of the police But due to organized obstruction by the women folk backed up by male persons the work of demolition could not be proceeded with briskly They dragged the gang coolies, used foul language, tried to throw dung filth collected and readily kept in pots and had ~~ex~~ chappals kept in a row for use on Municipal Officers -One woman removed one of her chappals and was on the point of using it against Municipal Engineer when the police Sub Inspector intervened and took the chappal away from her hands By that time as it was late in the evening the work of demolition had to be stopped and the work was continued the next day i e , on 13-5-48, with additional reserve police help under the direct guidance of the Assistant Superintendent of Police and the Police Inspector Davangere, at 9 a m All the obstructions were brought down to ground level by 1 P M At about the last stage of the work the Voddars brought a letter from Mr G Veerappa, Municipal Councillor to the President requesting the latter to permit the individual Voddars to take away their building materials Accordingly the materials were allowed to be taken away by themselves

It has to be mentioned in this connection that a large number of unauthorized sheds, booths and other structures are coming up in different localities of the City and man valuable municipal lands openly occupied unauthorizedly

contd

In the interests of protecting Municipal property the sanitation and proper get up of the city it is felt immediately necessary to prevent lawless occupation of municipal property, and removal of other encroachments and obstructions on municipal lands and public thoroughfares

The Petitioners are thus seen to be not lawabiding citizens as stated in their application It is learnt that they are being instigated by the communists to defy law and order and create trouble in the peaceful Municipal administration Such people do not deserve any sympathy

I have also to mention that the Municipal Council have on hand schemes for slum clearance and provide healthy sites for labour classes which form a considerable section of the city population There are more than 2,000 applications for grant of sites from people of various communities pending disposal in this office The council is keenly alive to the problem of providing them with decent living accomodition The Voddars have already been granted nearly 150 sites so far by the Municipal Council who have been very sympathetic to this community and more sites have been given to them than any other single community who are numerically stronger The telegram received along with the letter is herewith returned

I have the honour to be,
Sir,

Letter No H C 149/47-48 dated 6th June 1948 from the President Davangere City Municipality, Davangere City to Sri A V Thakkar Baba, General Secretary, Harijan Sevak Sangha, Delhi

---

Re -The Copy of your office letter dated 29th May 1948 to the Hon Minister-in-charge of Industries regarding 9 houses of Bovies of Davangere City.

I am sorry that you have stated in your letter that I could not go with you for inspection of spot on the morning of 28th May As a matter of fact no body called me to go with you that morning I was with you in the Dock Bungalow the previous evening till you retired into bed and went home only after taking your permission The next morning I waited upon you on the platform of the Railway Station, I was brought before you several times so that you may recognize me as President of the Municipal Council I do not know why you forgot to mention the topic even at the time of your departure Otherwise I would have clarified the matter there alone I was completely unaware of your programme of a morning visit to the spot of the Bovi houses on the 28th May Had it only been suggested to me I would never have failed to accompany you

It pains me that I am forced to reveal certain unpleasant facts regarding certain self-styled local leaders in our congress party Else I may not succeed in making you aware of the justice of the Municipal action in erasing the unauthorised constructions and the back-biting nature of those people would have no scruples to mis-represent fact to persons of importance like you and thus wreak vengence upon me by slandering myname

Mr G Veerappa, whom you have been pleased to designate as worker for depressed classes is not what he professed to be He just had a knack of approaching important people who happen to go to this City and glorify himself He has failed to become the president of this Council several times in the past despite his machievallean tatics In fact he has now mustered certain disgruntled and antisocial elements of the party to fight me on all fronts He has connived at the unauthorised construction ofhouses by the bovies in the spot you have visited. The land never belonged to the 9 people in question They have not cared to await proper allotment of sites in suitable locality Instead they have taken the law into their hands in as much as they proceeded with the constructions in the Municipal land and despite the notice issued by the municipality that they should not do so as it would infringe Municipal law If their high handed occupation of the Municipal land had gone without action being taken against them the Municipal administration would have no cause to exist at all The Voddars (applicants) actually assaulted the gazetted officers Prosecution has been launched against these offenders There are 20,000 poor people in this City and arrangements are made to grant sites to hundreds of these in the City for constructing houses The problem of housing these people is the real problem before which the question of 9 people who have no respect for law or administration would pale into insignificance The priority must, in all fairness should go to other law abiding people of the community The Council however, will not be vindictive but will try to do justice, all keeping in mind the maintenanc e of law and order and planned development of the City It is curious why a responsible officer like Sri Hanumanthappa should have precipitated matter by allocating building materials to these 9 people for whom sites were not granted or confirmed when there were others of the same community for whom sites were granted and confirmed long ago, but who were not able to build houses for want of assistance The conduct of this officer in creating unpreceedented trouble is reprehensible and calls for urgent action

He has not made this allocation of building material after ascertaining from this office whether sites were confirm for them This shows that he wanted to do things according to his sweet will and pleasure without caring whether Munic laws are respected or not There are hundreds of Harijans wh problem is not consideration for him I feel that an enquiry expedient in this matter

Subject:-Removal of unauthorised structures and obstructions on municipal lands in Chamarajpet "C" Block Davangere City.

Sir,

With reference to your letter No.L.16226/6 dated 15-5-43 calling for report regarding the above subject I write to state that on receipt of infromation on 13-4-43 from the Sanitary Inspector that several persons were unauthorizedly ~~by~~ putting up buildings in Municipal sites in Chamarajpet "C" block notices were served on them on 13-4-43 to stop work. But instead of obeying the lawful direction as per notice served the construction of the buildings was hastened in an open and defiant attitude. Four persons went to the length of even applying for grant of building licences on sites which they definitely stated in their applications as belonging to the Municipality.

On 14-5-43 when the Municipal President and Councillors conducted the inspection of the third division in Company with the executive officers the highhanded attitude of the Voddars (bovies) was also noticed by them. The President and the Councillors advised and warned the persons not to proceed with the unauthorized constructions on Municipal lands.

On the note of the Municipal Commissioner the President convened a special emergent meeting of the Council and the Council after discussing the question completely have unanimously resolved that these nine unauthorized structures and other obstructions in the city must be removed under Section 144 (2) of the City M. Act. A copy of the resolution of the Municipal Council is

is herein enclosed for information of Government.

An attempt was made on 10-5-48 to get the obstructions removed; but as the parties prayed for time to enable them to pull down the structures themselves, two days time was granted to all the nine offenders. Instead of pulling down the structures some of the persons in defiance of the notices served and advice given they openly persisted in making additions to the unauthorized structures on Municipal lands.

On the expiry of the time granted to pull down the structures by themselves, action was taken to commence demolition of the obstructions on 12-5-48 with the help of the police But due to organized obstruction by the women folk backed up by male persons the work of demolition could not be proceeded with briskly. They dragged the gang coolies, used foul language, tried to throw dung filth collected and readily kept in pots and used ex chappals kept in a row for use on Municipal Officers. One woman removed one of her chappals and was on the point of using it against Municipal Engineer when the police Sub Inspector intervened and took the chappal away from her hands. By that time as it was late in the evening the work of demolition had to be stopped and the work was continued the next day i.e , on 13-5-48, with additional reserve police help under the direct guidance of the Assistant Superintendent of Police and the Police Inspector Davangere, at 9 a m All the obstructions were brought down to ground level by 1 p.m At about the last stage of the work the Voddars brought a letter from Mr. G. Veerappa, Municipal Councillor to the President requesting the latter to permit the individual Voddars to take away their building materials. Accordingly the materials were allowed to be taken away by themselves.

It has to be mentioned in this connection that a large number of unauthorized sheds, booths and other structures are coming up in different localities of the City and many valuable municipal lands openly occupied unauthorizedly.

conta 11

In the interests of protecting Municipal property the sanitation and proper get up of the city it is felt immediately necessary to prevent lawless occupation of municipal property, and removal of other encroachments and obstructions on municipal lands and public thoroughfares

The petitioners are thus seen to be not lawabiding citizens as stated in their application. It is learnt that they are being instigated by the communists to defy law and order and create trouble in the peaceful Municipal administration Such people do not deserve any sympathy.

I have also to mention that the Municipal Council have on hand schemes for slum clearance and provide healthy sites for labour classes which form a considerable section of the city population. There are more than 2,000 applications for grant of sites from people of various communities pending disposal in this office The council is keenly alive to the problem of providing them with decent living accomodition. The Voddars have already been granted nearly 150 sites so far by the Municipal Council who have been very sympathetic to this community and more sites have been given to them than any other single community who are numerically stronger. The telegram received along with the letter is herewith returned.

I have the honour to be,
Sir,
Your most obedient servant,

Re 9 houses of Bovis of Davangere City pulled down by the Municipal President in the current month of May 1948

I send you herewith an application received by me at Davangere on the morning of the 28th instant when I visited the same I visited the spot in company of Shri G Veerappa and the Development Officer of Chitaldrug District and a large number of other friends, the same morning Unfortunately the Municipal President could not go with me on the spot and hence I could not get to know why the nine houses of Thimmappa Bovi and 8 others were pulled down with the help of reserve police The only information I could get was that the site was required for locating a High School on that spot The information did not seem to be correct, as the whole site consisting of dozens of houses forming a Labour Colony was unsuitable for locating a High School Whatever the reason for pulling down the 9 Bovi houses may be I would request the favour of your enquiring into the matter and doing justice to those 9 poor families who have not only been thrown out of their houses, but had to suffer much financial loss thereby The case seems to be a specially hard one and deserves your special attention and consideration

Petition dated 27th May 1948 from the President and members of the Bovi (Depressed Class) Association, Davangere City to Sjt Thakkar Bapa, Honorary Secretary, All-India Harijan Sevak Sangh, Camp - Davangere

---

We the President and members of the Bovi (depressed classes) Association Davangere City and loyal subjects of the Government of Mysore most humbly beg to bring the following few lines before you for kind consideration

We belong to Bovi community, that is depressed class (schedule class) There are nearly 1000 houses of our community in Davangere City All are living in this place for more than a generation

We are all poor and living by hard labour The houses in which we are living are all thatched sheds The huts are destroyed many a time on account of accidental fire There is no water facilit in our colonies We suffered and stood helpless so many times on account of our thatched sheds

We have been requesting the Municipal Authorities so many times by petitions and representations for grant of sites in which our people are living for more than a generation for upset prices and for help to construct small houses by using tiles, etc , But no site has been given to us so far

In Nudda Bovi Colony, the sites are all allotted and some of them have already been given to some of our community people But by misfortune no site has been given to so many people of our community even though we pressed and represented the Municipal Authorities so many times

At the time of the visit of the Hon'ble Minister for Financ and Industries and Hon'ble Minister for Depressed classes for the Government of Mysore, to Davangere City that too the Bovi (depressed class) Colony during the month of March 1948, we represented our conditions and prayed for grant of municipal sites in which our

community people are living and also prayed for depressed class grant to construct the small tile houses The benign Government heard all our representations and instructed the Development authorities for giving depressed class grant and the Municipal authorities for granting the municipal sites in which our community people are residing for the construction of tile houses, etc

As per orders of the Benign Government the reapers and tiles are all received by the Depressed Class Fund Our people are all given mutchalika to Government stating that all their houses will be constructed within one month, otherwise they ought to return the reapers and tiles to Government, etc

As per conditions of the mutchalika and orders of the benign Government and also oral instructions of the municipal authorities, some of our community people that is Thimmappa and eight others who are all innocent and law abiding people, applied to the Municipality for grant of municipal sites and license to construct houses for their residence and began to finish the buildings as it is a rainy season now After all, these buildings were constructed, an endorsement has been given by the Municipality to remove all the walls of all the houses within 24 hours otherwise those houses would be removed by the authorities, etc

By seeing the order we, the poor people were all frightened highly We prayed and represented the benign Government of Mysore and municipal authorities of the Davangere city by telegrams and petitions to save the poor and depressed class people But, no favourable order has been given to us in this connection

Meanwhile, the Municipal authorities, with the help of the Police destroyed all the buildings of our community people and refusing to grant municipal sites and also made these depressed people in critical condition

In the circumstances stated above, we beg your honour to save the poor people who are the hardworking and innocent law-abiding subjects by recommending to the Government to direct the Davangere Municipal Council to give us the same sites on which we had built houses

For which act of kindness we ever pray for your long life and prosperity

Sir,

Voddi residents of Kudda Bovi Colony-
Arthur Road, Bangalore

Respected Sir,

We beg to submit this petition to you for your sympathetic and earnest consideration in the hope that you will not allow injustice to be done on a helpless and oppressed class people of this place

The Voddi are one of the depressed class people and we are about 5000 in this city particularly in Kudda Bovi colony there are about 50 Voddi huts which colony is in existence for over half a century now and to the various requests made by our people these many years, not more than half a dozen sites for huts have been sanctioned by the Municipality The remaining people have been living on municipal lands either paying ground rent or free

Recently the Revenue authorities were pleased to allot some of our people tiles, rafters, etc free of cost for constructing some mud houses As we were pressing for sanctioning these sites to the municipality, we were given assurances that we would be given priority in the matter When the minister for Finance and Industries Sri H C Dasappa visited this place we took him round our colony and made representations to him He sympathised with our prayer

and

and instructed the municipal president to help us by sanctioning these sites which he agreed to do

After the Government gave us tiles, rafters, etc we had our application for granting us licences to construct building in the sites - where we were already residing for the past few - decades in huts unfit for human habitation On the previous assurances held out to us by the President and the Finance Minister we ventured to construct nine buildings and most of our houses are nearly - completed some are actually completed at a cost of Rs 800-1200 each We submit that out of us have borrowed much of the capital and we have contributed our labour for this work

To our great misfortune after the work was completed the Municipality thought it fair - and decided upon to pull these down We implored them - therefore not to pull down these constructions built at such great cost but to settle the question in any reasonable manner he thought fit Prior to his settlement, we proceeded to place these houses under his care and in his possession But it could soften his stony heart He got the Provincial Reserve Police force fully armed with guns against helpless and hapless poor depressed class people and mercilessly and callously pulled down all and all of these nine houses to the earth thus causing destruction and suffering to these - persons Even the appeal of the townspeople and some Municipal Councillors were in vain

Weeping and wailing of the women and

children

children were a most pathetic and heart-rending sight the President in addition to this grand and meritorious act has also prosecuted some women and children of the house that they obstructed him in the discharge of his official duty--official duty being the fiendish act of pulling down houses of the poor and the depressed and down-trodden

This, in short, is our story of our suffering wrought ironically enough by the votaries of Truth and Non-Violence--by a political party which professes to follow Mahatmaji who was the champion of all depressed people Shri Thakkar Bapa an ardent disciple of Mahatmaji who visited along Srimathi Kasturbha Doraiappa were greatly moved--may actually moved to tears--by this ghastly and inhuman and wanton vandalism they promised us all - reparations and said that justice would be done to us

(1) We have thus been deprived of the free gift of tiles and rafters generously given by the Government

(2) We have lost our houses built by the sweat of our brows

(3) We have been indebted to the bankers for the money we borrowed for this purpose

(4) We have been deprived of our livelihood - in going up and down the courts of law to meet the charge of the Municipality

(5) We have to incur yet more costs to engage legal aid to defend ourselves

These are some of the benefits which have been conferred on us by the Municipality which goes by the name of the Congress party

As the Government is also a Congress Government and consequently a peoples' Government, we look up to you helplessly for redress of these wrongs and hardships deliberately caused We humbly pray that you may be

pleased
